Stock Market Closes Quiet and Firm, After Prices Score Fractional Rally

NEWS FROM FAR EAST INFLUENCES TRADING

Course of Market Directed by Situation in Orient-Copper Again Leads Advance.

NEW YORK, Jan. 9.-The influentia factor in the stock market this morning was the distinctly favorable characte of the news regarding the situation is the Far East. London quotations show ed rather general improvement and for eign houses were moderate buyers here In the railway list there was an ad vance of a point or over in St. Paul Union Pacific and Wabash preferred Elsewhere gains of substantial fraction were scored. Amalgamated Coppe again was the feature of the industria group, advancing a point and holding the gain fairly well on the reported im provement in the market for the metal. United States Steel stocks were strong with a gain of nearly a point in the preferred. Colorado Fuel opened up 1% per cent. The local tractions were firm The stock exchange tickers in brok ers' offices were put in operation in spite of fire in the Western Union's downtown stock exchange offices, but the disorganization of the ticker service elsewhere had some effect in restricting business. The speculation was narrow and largely professional, but the under tene of the market was decidedly Government bonds were unchanged

Railroad bonds, generally higher, with good improvements in United States Steel 5's and Wabash debenture B's. The market treated the publication of the bank statement with indifference and prices moved little in the late dealings. In some instances there was shade off quotations, but as a rule the market closed dull and firm.

FIRE DISABLES WIRES

Wall Street Shut Off From Quick Communication-Fought by the Messenger Boys.

NEW YORK, Jan. 9.-There was an obstinate fire in the new Stock Ex-change Building on Broad Street early this morning, and though the damage did not exceed \$2,000 it looked for a time as though havoc would be wrought by About 2 o'clock this morning one of

the messenger boys employed in the Western Union Telegraph and Cable office in the basement of the building had occasion to go to the subcellar. He discovered that that portion of the building was filled with smoke. He reported the fact to the operator and the latter found the blaze in the battery room. He formed a bucket brigade with messengers who were able to keep the blaze from spreading until the firemen arrived. The boys who went to turn in an alarm found the boxes out of order.
One of the lads then ran to Engine No.
19 and that company quickly responded.
When the fire fighters arrived they
found some difficulty in reaching the
blaze, owing to the network of cables.
Finally the hose lines were taken down
the elevator shafts and the fire extinguished.
Western Lines officials say the lines.

guished.

Western Union officials say the lines burned out will not seriously interfere with the service.

Because of the fire the tickers of the Gold and Stock Quotation Company, the official reporters of stock prices, were out of commission this morning.

Wall Street news tickers are trying to fill the gap by handling quotations until the stock exchange wires can be repaired.

What you mistake for relief is deadening of the nerves by the opium and other poisonous drugs they contain.

That weakens your body—the disease remains and gets a stronger hold.

If it is a cold or grip, it turns into pneumonia, because the drugs have robbed your body of strength and vital force—the only power by which you can fight off and overcome disease.

We again remind you that Father John's Medicine cures colds. It is not a patent medicine, and that it is all pure nourishment, free from opium, morphine, or other poisonous drugs.
